Artwork Guidelines for Market Place Ads

Thank you for your partnership. We desire to do the best we can for you and have listed the guidelines for your camera-ready artwork for the Marketplace Ads.

- 1) All artwork may be a pdf, png or jpeg. No html.
- 2) The ¼ page artwork needs to be 250 pixels (or 2.5 inches) wide and long (square).
- 3) Because of the smaller size, we recommend that you don't use a lot of text. The purpose of these ads are to create awareness and to drive viewers to your website (or other page) via the link provided. If you desire more copy, then you might want to consider the ½ page.
- 4) The ½ page artwork needs to be 500 pixels wide (or 5 inches wide) and 250 pixels long (or 2.5 inches) (rectangle).
- 5) Please include the link to be used with the picture. Only one link per picture. An email can be used but is not recommended.
